Wire-Free Localization “Thrives” With SCOUTCare[™] Support

Implementing wire-free localization across a healthcare system can seem daunting, but when you choose SCOUT[®] you receive not only a custom-tailored implementation plan, but ongoing clinical and operational support from your Merit team.

A recent article published in Hospital and Healthcare Management documents one institution’s experience with the education, training and support of the SCOUTCare[™] customer support program.

“The SCOUTCare program helped us to implement the wire-free technology across the entire UHealth system,” said Ms. Wood. “The medical team and I met with every surgeon one-on-one while they were doing their SCOUT training.”

21ST ANNUAL MEETING

APRIL 29 – MAY 3, 2020 LAS VEGAS, NEVADA

MEETING INFORMATION

Any hot topics you'd like to discuss while we're at ASBrS 2020? Maybe time of biopsy localization or oncoplastic procedures? How about implant visibility under MRI or localization technology comparison? Email us at ciannainfo@merit.com.

Have Questions?

Do you want more information about SCOUT and how it was designed to make the day of breast cancer surgery easier for women and more efficient for healthcare providers? Send us a note.
