

SCOUT[®] REPORT

News and Views on Surgical Guidance
and Breast Tumor Localization

The Preferred Localization Solution to Treat More Patients—Globally!

In addition to our CE Mark for distribution in European markets, the SCOUT[®] Radar Localization System is now available in Australia and New Zealand. Patients on five continents are now benefiting from the advanced precision of RADAR technology. For more information on the availability of SCOUT, please [contact us](#).

Webinar Archive:

Advanced Applications of Wire-Free Radar Localization

In a recent webinar event, breast health specialists from around the world gathered to learn from Dr. Juliann Reiland's [experience with Radar Localization](#) for oncoplastic breast cancer surgery.

Merit Oncology is hosting a continuum of ThinkWireFree online educational events to equip physicians to leverage the advanced, patient-centered applications of SCOUT Radar Localization, including oncoplastic techniques, and localization prior to neoadjuvant therapy and at the time of biopsy for highly suspicious lesions.

Access archived webinars and view upcoming courses at Merit.com/ThinkWireFree.

WEB-BASED LEARNING

Join Us Wednesday, May 27th for our Next KOL-Hosted Event

Barry Rosen, MD

Breast Surgeon and Medical Director of the Breast Center at Advocate Good Shepherd Hospital, Barrington, IL

Merit Oncology is committed to offering a continuum of virtual programs hosted by Key Opinion Leaders to support ongoing education, particularly at a time when traditional conference meetings have been postponed.

On May 27th, Barry Rosen, MD, will present a webinar entitled

“Patient-Centered Breast Cancer Treatment: Extraordinary Care for Extraordinary Times.”

Presentation Highlights:

- Optimizing patient care in the COVID era**
- Placement at the time of biopsy**
- Localization prior to neoadjuvant treatment**
- Enhanced patient and physician experience**
